DEMANDS OF MINERS ARE EXPLAINED TO COMMISSION

WASHINGTON, D. C., Jan. 14.—Miners continued today their arguments for wage advances and shorter hours before the presidential coal commission adjusting the causes of the recent strike.

"It is the inability of the miners to get regular work that makes them require 60 percent increase in wages," John Moore, president of the Ohio district, said. "No coal miner can tell whether the mine is going to work the next day or not."

John F. Lewis, acting president of the United Mine Workers, gave out a statement, reiterating that the miners' demand for a thirty hour week, only asked "assurance that they will have not less than thirty hours of steady work each week in the year."

"The public has the wrong impression on that subject," Lewis said, "because they were led to believe that the miners were opposed to working more than 30 hours a week. The fact is the coal miners cannot earn a living for the whole year by working only a part of the time, no matter how many hours a day they may work. But if he can be assured of not less than 30 hours a week throughout the year at a reasonable and fair wage, he can make a living for himself and his family."

Lewis said the miners could produce all the coal the country needed at a 30 hour week basis.

BODY FOUND WITH HEAD NEARLY CUT FROM NECK

LOUISVILLE, KY., Jan. 14.—Louisville police and detective departments today confidently expected that before many hours they would apprehend the murderer of Miss Rebecca Lovell, a partial deaf mute, whose body was found in a local park yesterday with her head nearly severed from the neck.

The police announced that they were setting the girl's alleged sweetheart, a deaf mute, whose description compares with that of a deaf mute named by two policemen near the park early Tuesday. The man was allowed to proceed after he had told the policemen three hand signs that he was "looking" his way to Akron, Ohio, where he expected to find employment. This was before the murder became known.

SOVIET "AMBASSADOR" AND SECRETARY QUIZZED BY SENATE ON "RED" PROPAGANDA

L. A. C. Martins, at right, and Santeri Nuorteva, snapped in Washington before hearing.

L. A. C. Martins, self styled "Russian soviet ambassador to the U. S.," and his secretary, Santeri Nuorteva, have been testifying before the senate committee investigating Russian propaganda in the U. S. Department of justice agents had been searching for Martins with warrants for his arrest when they located him at the home of a friend.

Students Favor Compromise Which Would Make Possible Immediate Ratification

NEW YORK, Jan. 14.—Incomplete returns today from 32 of nearly 400 colleges and universities, whose students and faculty members voted yesterday on four questions concerning the peace treaty and League of Nations, showed that out of a total of 11,880 votes cast, 22,843 favored any compromise which would make possible immediate ratification.

The wording of the proposition which was generally favored, follows: "I favor compromise between the League and Democratic reservations in order to facilitate ratification of the treaty." The proposition favoring ratification of the league and treaty without reservations got 6,979 votes; that opposing ratification in any form 2,023 and that favoring ratification, but only with the League reservations, 7,444.

In New England there was a decided preference for the compromise proposition, which shared generally by the eastern colleges. In the middle-west the earlier returns showed a preference for the same proposition, while the votes were quite evenly distributed between ratification without reservations and ratification with the League reservations, for second place.

In the south early reports from 12 universities and colleges showed a large plurality for ratification without amendments. Those favoring the compromise plan came next. The inter-collegiate treaty referendum committee received telegraphic returns here from all the colleges and complete results were expected to be announced at midnight.

CHICAGO, Jan. 14.—Eight of 20 mid-western colleges in the inter-collegiate referendum yesterday voted in favor of any compromise which would make possible immediate ratification of the peace treaty, and eight were in favor of ratification without reservations or amendments, according to incomplete returns compiled today. Three favored ratification with the reservations proposed by Senator Lodge and one voted in favor of a separate peace.

The voting generally was light, and so divided that not any one of the four propositions received a large plurality in any one college.

Brotherhood officials requested a national agreement last summer and the subject has been under consideration since that time, first by the regional directors and later by the board of railway wages and working conditions.

"SOVIET ARK" LEAVES K'EL

WEL, Tuesday, Jan. 13.—The United States army transport Relford, carrying 239 Russians, reported from the United States, left Kiel for an unknown Russian port at 7 o'clock this evening.

Previous advices indicated that the Relford might land her passengers at Hapsa, on the southern Finnish coast, where the party might proceed by rail to the Russian frontier, a 12 hour journey.

Over 400 Perish In Ship Disaster

LA ROCHELLE, FRANCE, Jan. 14.—More than 400 persons are believed to have lost their lives in the wreck of the steamer Afrique on Rorbe l'onne shoal, Bay of Biscay. Only 57 survivors are known to have been landed. Hope for the rest of the passengers and crew faded during the last night as hour after hour passed without cheering tidings and 72 hours after the vessel foundered many feared one of the greatest marine tragedies of modern times was enacted off the coast before dawn Sunday morning.

Sailors and French colonial soldiers are the only persons from the ships known to have reached land safely.

"It was impossible to approach the Afrique," said Captain Jouan, of the steamer Celyan, which was summoned to the scene of the wreck by wireless Saturday and which attempted to rescue those on board the doomed vessel. "I remarked in wireless communication with the ship, however, and received the following message: I am drifting and I fear the ship will go ashore." Later came another message saying: "I am steering for a light."

"Then came a final message: 'We are sinking.' That is all I know about the loss of the Afrique."

Some of the rescued sailors declared that when, with great difficulty, boats were swung out, passengers were afraid to jump for them, seeing they were already half full of water.

WHAT'S BECOME OF DRY VOTES?

COLUMBUS, O., Jan. 14.—Master commissioners conducting the recount of votes on the federal prohibition amendment are wondering what has become of the dry votes in Precinct 1 of the First Ward, Cleveland.

On election night, election officials reported the vote from that precinct as being 104 dry and 123 wet, but when the ballots of that precinct were counted in court only 127 wet votes were found and not a single dry vote. The case will be submitted to Judge Cleveland, and it is said he may throw out the entire vote of the precinct.

DANIELS' RELATIVE DECLINES WAR CROSS

WASHINGTON, D. C., Jan. 14.—Commander David Worth Bagley, brother-in-law of Secretary Daniels, has called the navy department requesting that his name be considered only for such decoration as was conferred upon all captains of destroyers serving in the war zone.

Commander Bagley, whose ship, the Jacob Jones, was torpedoed and sunk during the war, was recommended for a navy cross by the war department board, but Secretary Daniels awarded him the distinguished service medal along with the captains of other naval ships destroyed by enemy submarines.

Commanders of destroyers serving in the war zone were awarded the navy cross. Secretary Daniels said today that the message would be referred directly to the Knight Board, now considering the whole question of naval awards, for such action as the board might see fit.

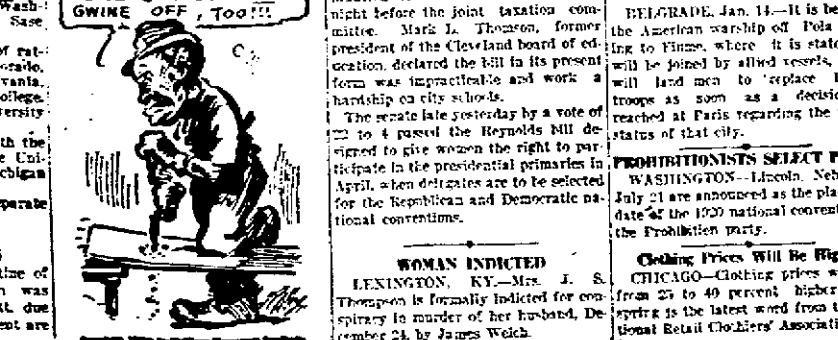

Commander Bagley, who is serving as naval attaché at The Hague, recently called the department that Enquirer newspapers had published statements that Rear Admiral Sims had charged that Commander Bagley received his distinguished service medal because of the favoritism of Secretary Daniels and that the widespread publication of the report had made the continuation of the discharge of his duties as naval attaché extremely difficult and embarrassing. He requested the department to obtain a denial from Admiral Sims and to make an effort to gain widespread publicity for it.

Admiral Sims has written another letter to Mr. Daniels, headed "Some Thoughts About Lessons of the World War," the secretary said today, adding that he had not read all of it, but indicating that it dealt with the general question of naval morale and efficiency and "was controversial" in tone.

TROOPS OPEN FIRE AS DEMONSTRANTS ATTACK REICHSTAG BUILDING

BERLIN, Tuesday, Jan. 13.—(By the Associated Press)—The government tonight proclaimed martial law in all sections of Germany following the mob demonstrations this afternoon in which at least 10 persons were killed and many others wounded by machine gun fire from guards in front of the reichstag building.

Gustav Noske, the minister of defense, has been appointed commander in chief of the greater Berlin district and Brandenburg province. Street parades, meetings and demonstrations of all kinds have been prohibited.

BEHLIN, Tuesday, Jan. 13.—Many persons were killed and wounded in a melee between members of a mob and police guards in front of the reichstag building here this afternoon.

The mob, organized by extremists, as a protest against the industrial council's bill now before the reichstag, began to gather this morning, by noon every street leading to the reichstag was crowded with masses of people carrying red flags and placards. Anticipating a demonstration before the reichstag building, the authorities had surrounded the building with public security guards and machine gunners who barred approach to the edifice. As time passed the crowd, was joined by striking train employees and soon inflammatory speeches were begun by agitators.

When the shooting commenced at 3 o'clock the crowd surrounding the building was estimated at 10,000 and new delegations of working people carrying red flags and banners inscribed with the words "power to the soviets" continued to arrive. Troops, reinforced in huge motor trucks, were ordered to the guards on duty, but only one arrest had been made since noon. The man taken in custody was said to have shouted "down with Noske."

The Unter Den Linden entrance to the Hotel Adlon was closed and darkened. The members of the assembly were not molested as they left the reichstag building after adjournment was taken.

NO CHANGE OF RATIFICATION BEFORE FRIDAY

WASHINGTON, Jan. 14.—Prospects of ratification of the peace treaty with Germany by the senate before Friday, the day of the initial meeting of the League of Nations council, had been abandoned today by leaders of all factions involved in the controversy.

William Jennings Bryan, in telegrams to a number of members of the senate a few days ago, urged that the treaty be ratified before the league council met, so that the United States might participate.

Among Democratic senators, however, there was a well-defined feeling that next week might bring an agreement on reservations which soon thereafter would result in another ratification vote. Republican leaders, particularly those of the mild reservation group, viewed the compromise negotiations of the last few days as promising.

Protestors for firing upon the crowd was furnished by its attempt to storm the west entrance of the building. A score of men attacked several guards and wrenched their rifles from them just as soldiers rushed up and then general firing began. When the troops began firing, the crowd ran pell-mell in all directions.

At the sound of the guns members of the lower house of the Reichstag left the assembly chamber and crowded into the lounge room, where there was intense excitement.

MEXICO ISSUES MORE DENIALS

MEXICO CITY, Tuesday, Jan. 13.—Reports that the Japanese cruiser Yukikura, which recently visited Manzanillo, acted as a cover to a vessel which landed a shipment of arms and ammunition for the Mexican government were declared "baseless" tonight by General Juan Berrigan, chief of the presidential staff.

Hilario Medina, under-secretary in charge of the foreign office, issued at the same time a denial that a secret treaty had been negotiated between Mexico and Japan. He asserted that such rumors had been spread by enemies of the government.

Plan For Mass Meeting

Final plans were made last night for the mass meeting of the Federated Men's Bible Class Movement to be held next Tuesday night in the basement of Second Presbyterian church. The Board of Directors of the Federated Movement met last night and prepared the program for the big meeting. It follows:

7:15 to 7:45—Social and Athletic Stunts. Program starts promptly at 8:00.
Chorus and Special music, 20 minutes.
Lessonette, 10 minutes—A. Z. Blair.
Talk, 10 minutes—C. E. Dowling.
Practical plans for building up Men's Bible Classes.
Round Table discussion, led by Prof. Frank Appel.
Calisthenic Classes led by Evan Williams.

The doors will open at seven o'clock and the officers and teachers of the various men's classes will be on the reception committee. A crowd of about 700 men is expected.

It was also decided last night to have "boosters" talk for five minutes in all the Sunday schools next Sunday morning, the "boosters" to call attention to the mass meeting and "high record day" for men's classes set for Feb. 1st. The "boosters" and the places to which they were assigned are as follows: Frank Allen, First Christian; John E. Williams, Trinity; First Baptist; J. Adam Barker, United; Brethren; Bigelow, First Evangelical; Prichard.

Boy Shoots Self

Brock Skaggs, 18 year old young man of 2302 Ninth street, Earlstown, suffered a painful wound about three o'clock Tuesday afternoon when he accidentally shot himself in the left knee. Skaggs was at the golf grounds firing the revolver and accidentally discharged it the bullet entering his left leg above the knee and coming out just below the knee. The shot badly injured his knee joint. Dr. W. D. Micklethwait was called to attend the young man who is well known in Earlstown.

11 HENS IDLE; NOW LAY 221 EGGS A MONTH

Mrs. Young Almost Gave Up Raising Chickens. Then She Tried This Plan.

"When I started my offer and tried Don Sung, I had been getting 1 or 2 eggs every other day. The next month, using 50 cents worth of Don Sung, my 11 hens laid 221 eggs. I had been getting 1 or 2 eggs every other day. I have decided to raise as many as I can."—Mrs. F. C. Young, Bellefonte, Pa. Feed is too expensive to waste on idle hens. You can really start your hens laying and keep them laying, even in coldest winter. To prove it, all you need do is accept our offer, as Mrs. Young did.

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit, we'll refund your money. Don Sung (Chinese for egg laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her more active in any weather, and starts her laying. Try Don Sung for 30 days and if it doesn't get you the eggs, we'll refund your money. To prove it, all you need do is accept our offer, as Mrs. Young did.

Get Don Sung from your drugist or poultry remedy dealer or send 50 cents for a package by mail prepaid. Burrell-Dugger Co., 224 Columbia Bldg., Indiana, Pa.

YOUTH ARRESTED.

James Smith, 16 years old, an East end youth was arrested by Captain Starmerman and Officer Flowers last night, charged with the theft of a bicycle from the residence of 1634 1/2 South street. Questioning of the youth led to the recovery of the bicycle in an upstairs room of Gallia street, where police say he confessed he had hidden it. The lad was turned over to the juvenile court this morning for disposition of his case.

James Hannah, Sr. of the Scioto Trail, who is suffering from paralysis, is improving.

Women Need Swamp-Root

Thousands of women have kidney and bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble. Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such condition.

Get a medium or large size bottle immediately from any drug store. However, if you wish to test this great preparation send ten cents to Dr. Kilmer Co., Piquette, N. Y. for a sample bottle. When writing be sure and mention The Portsmouth Times.

Notify Miss Simmons

The girls who are planning to attend the club supper at the Blue Triangle rooms on Friday evening at six o'clock, are urged to call 1550-1, to notify Miss Carol Simmons before Thursday evening. These weekly suppers are becoming more popular than ever with the business girls of the city. Plan to go and have a merry evening.

How to Stop a Cough

A constitutional remedy that removes the cause by building up the system, will stop a cough and break up a cold. These elements contained in Vinol—Beef and Cod Liver 1-spones, Wild Cherry, Iron and Hypophosphites—soon create an energy that throws off the cold and prevents its recurrence.

Here is Proof that Vinol is a Great Remedy for Coughs and Colds. Columbus, S. C.—"I contracted a cold as a result of a cold and it could not sleep at night and soon found I was in a weak, run-down condition and could hardly keep around. Vinol built me up and my cough disappeared after other remedies had failed to help me."—Mrs. ELLAN COLLINS.

For all run-down, nervous, anemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

Your money will be returned if Vinol fails—

Boy Hurt

Feary Buffington, seven year old son of Mr. and Mrs. Feary Buffington of 701 Third street was seriously injured about the pelvic organs this morning about eight o'clock when run over by a Ford touring car at Fourth and Washington streets. The boy has been unable to tell much about the accident but says two men were in the machine and that the machine jumped the curb as it turned the corner and that it caught him before he could get out of the way.

According to the boy the men picked him up and put him in the machine and he directed them to his home, about a square away, the men putting the boy in the yard of his home and then driving away before anyone could learn their names. The boy's cries brought his mother to the front of the house where she discovered the boy. Dr. H. M. Kell was called and after a short examination found the boy X-rayed to determine if any bones were broken. It is thought that he is seriously injured internally.

The father of the boy is making an effort to learn the identity of the driver of the machine.

Directors Are Elected

At a meeting of the stockholders of the Central National Bank last night at the quarters of the big financial institution in the Kricker building, ten men were elected to constitute the board of directors as follows: P. S. Clark, S. S. Haldermann, F. L. Marting, George E. Kricker, Wells A. Hutchins, George J. Schmidt, Harry W. Miller, Harry E. Taylor, James A. Kelley and A. J. McFarland.

The bank enjoyed a splendid patronage during the past year and the annual dividend was declared.

The directors will meet within a few days and organize.

J. M. STOCKHAM IS PRESIDENT

Stockholders of the Ice Cream Bottling Company met Tuesday afternoon and elected the following directors: J. M. Stockham, Russell Stockham, John Tener, J. E. Tener, Simon Lawford and Mrs. Rose Micklethwait. The directors then organized by electing J. M. Stockham, president; Russell Stockham, treasurer, and J. E. Tener, secretary and manager. The company had a very good year and is planning to enlarge their plant for increased business next year.

ATTORNEY'S DUTY TO STOP PROFITEERING, SAYS HEINZ

Proponent Has No Time to Answer Questions Concerning Action in Other Cities

With his limitations of this character, the direct, vigorous action, the food program, when it is held responsible for the maintenance of their children, Francis Kane, United States district attorney, declared yesterday he was powerless to check profiteering.

Mr. Kane complained to the War Relocation Authority, Philadelphia, to organize a fair-price board. That of publicists, ought to be profited, he said.

But Howard Heinz, Mr. Kane's opponent, said that the fair-price board, which was organized by the Food Administration, had been set up by the War Relocation Authority, Philadelphia, to organize a fair-price board.

LAST season's suit still holds together and we can half-sole our shoes. And you can still buy a big generous tin of the jolliest old pipe tobacco that ever came down the pike, without mortgaging the old homestead. Hooray!

Take the "cost" out of the "high cost of living" and what do you get? Why, "high living" of course. Well, sir, that's what Velvet does.

It's like Velvet Joe says:

"Anybody can tell you how much Velvet costs. But only yo' old pipe can tell you how much Velvet is worth."

There's goodness knows how many pipe leads in every tin of Velvet. Or if you want the mildest cigarette ever—there's 45 big ones in every tin.

Great Quantities of Food Seized by Federal Agents in Big Cities

WASHINGTON, Aug. 14. (AP)—Federal agents in major cities have seized large quantities of foodstuffs by force of law under the food control act. In Chicago 1,200 tons of food, valued at \$200,000, were seized, and in Washington 100 tons.

White Attorney General Cummings said he intended to ask higher prices than those listed on the rationing board. He said that the seizure of foodstuffs by force of law under the food control act. In Chicago 1,200 tons of food, valued at \$200,000, were seized, and in Washington 100 tons.

NATURAL-TONE

From a Mechanical Standpoint

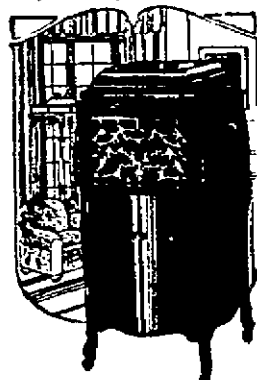

Westcota
NATURAL-TONE

Has No Equal in Price

Beginning with the substantial construction of the frame work of the cabinet out of the best fireproof mahogany veneer obtainable; through its seven different rubbings and polishings to give it its beautiful, velvety, soft finish, the Westcota cabinet reflects the grace of its beautiful lines.

Its graduated tone arm: the all wood, molded, simplifying chamber creates that wonderful "Natural-Tone" in which the "human thrill" is so apparent that you believe the artist in the flesh is actually there.

And the throbbing heart—the life of the instrument—the large, powerful, double spring, fibre inlaid, noiseless motor—as solid and substantial and as smooth running as human hands can make it—insure the service you can expect from your Westcota.

They say sound you say is a "Natural-Tone" way

Boy Hit By Truck; Skull Is Fractured; Dies In Hospital

Harry Steed, Jr., seven-year-old son of Mr. and Mrs. Harry M. Steed, 1132 Eighth street, was so seriously injured when knocked down by a heavy truck owned by the Pure Milk Company about 11:15 today, as he was crossing

Gallia street at John, that he died at the hospital, of a fractured skull about 12:30 o'clock, an operation performed in the hopes of saving his life, being unsuccessful.

The fatal accident which again

claimed the life of a child, is the second within five days. Wells Conklin, 11-year-old boy, being killed last Friday night, when he suffered a fractured skull the result of being knocked down by an automobile.

Little Harry Steed, who was attending the first grade of Bond street school, was in his first year of school and had enjoyed going to his studies. He was dismissed from school about 11:10 and had gone from the school home but a few minutes when he was struck by a three-fourth ton truck of the Pure Milk Company, the truck being driven by William Timmon. He was driving down Gallia and the boy started to cross Gallia street at John street, as he usually went out John street to Eighth to get to his home.

According to Timmon he had slowed down for the John street crossing and he was on the right hand side of the street. He says that the boy was coming across the street with his back toward the truck and was looking at several playmates on the south side of the street. Timmon says he yelled at the boy but the boy failed to hear him. The rear wheel of the truck striking the boy and knocking him down, his head striking the bricks a hard blow. A bystander rushed into the street and picked the boy up and carried him a few steps into Dr. A. R. Moore's office. The boy was not at his office and the Dr. H. H. Morgan was called. He realized the seriousness of the injury and took the boy to the hospital.

Dr. Moore followed soon after taking the boy's father to the hospital. The mother was told the bad news by

friends and she was almost distracted and needed the services of a physician. Dr. Morgan and Moore operated on the boy at once but his skull was so badly crushed when struck by the heavy wheel of the truck that this operation was unsuccessful. The boy is lying away at 12:30 on the operating table.

Besides the parents a younger sister, Maryillian, survives. She is three years of age.

The Steed family came here five years ago from Mauchland, Ky. Mr. Steed is employed by the Mine Furniture Company.

The family is well known and their friends will join with them in their hour of sorrow.

Wharfboat Is Located

Portsmouth's wharfboat is lodged on Kinney bar, about fourteen miles down the river, the owner, Fred Winter receiving definite news of its location late Tuesday from Captain Tony McDaniel, who is in charge of the government boat Cayuga, stationed at Dam 31, three miles below the city. He notified Mr. Winter last night that the boat was at right angles to the river, one end being on the bar and one end in the water. It is reported in a good condition, although the apron is missing. The government boat will go to the bar today and will place the wharfboat along the shore in a better position. Mr. Winter will go to Kinney bar today by machine to see what condition the wharfboat is in, and it is hoped that the river will fall enough in the next couple of days to allow the boat to be pumped out so repairs can be started.

All river traffic, as far as Portsmouth is concerned, is suspended until the wharfboat is returned here for use. Due notice will be given of the boat's return and opening for business through the press.

HEALTH BOARD MEMBERS SWORN IN

A meeting of the new Health Board recently appointed by Mayor William Gableman, was held Tuesday afternoon at 3:30 o'clock the only thing accomplished being the swearing in of the members. J. J. Orlett, Dr. T. G. McCormick, G. W. Bierley and Ben S. Steward were the members present.

Tuesday, Dr. J. D. Jordan being the center. Municipal Judge Horace Small swore in the members. A short caucus followed at which time the Board decided to meet Friday with the Solicitor S. Anselm Skelton present. All necessary legislation for the functioning of the Board, and for providing the various jobs under the Board will be brought in at this time.

World Almanac Contains Valuable Information

Among the latest books but also among the first books of the new year, and in any event an up-to-the-minute book, The World Almanac for 1920 has been published. According to the impartial judgment of those concerned in its preparation and publication, it is the greatest ever. But any latest World Almanac is that. Ask the oldest reader. He knows. Matters as reasonable as the League of Nations and as unreasonable as the Prohibition Amendment are treated at length in this Almanac, along with the income taxes, the recorded weather, the election results, the chronology and death roll of 1919 are more matters besides that can be indicated outside of the book's own index. Do you want to arrange a trip across America, hitting all the high spots? Here are ten pages of altitudes in the United States, not counting New York skyscrapers. Do you want to know in how large a company you burn up gasoline and highways? Here is a census of motos

in New York and a count of auto licenses in all the states. Do you want to abuse the United States Senate by its Christian—save the mark!—names? Here are the rolls of the Sixty-Sixth Congress in full.

Do you want to know almost anything in sport, politics, trade, industry, religion, Government, historical milestones, navies, armies, powers, Kings, Presidents and such? Here are the facts and figures, so far as possible official.

Some one, speaking of Thomas Babington Macaulay, remarked on an occasion that he possessed more knowledge than the needs of society required. The intent behind The World Almanac, obviously, is to keep well apart from those needs. After a rather close examination of the 1920 issue, we are convinced that it is short of detail only on those affairs that will come to a head just in time for the 1921 book.

The World Almanac is published by the New York World. Price 50 cents, postpaid.

A Woman Is As Old As She Looks

No woman wants to look old. Many in their effort to look youthful resort to the "beauty doctor." Their mistake is that they visit the wrong department in the drug store.

Beauty depends upon health.

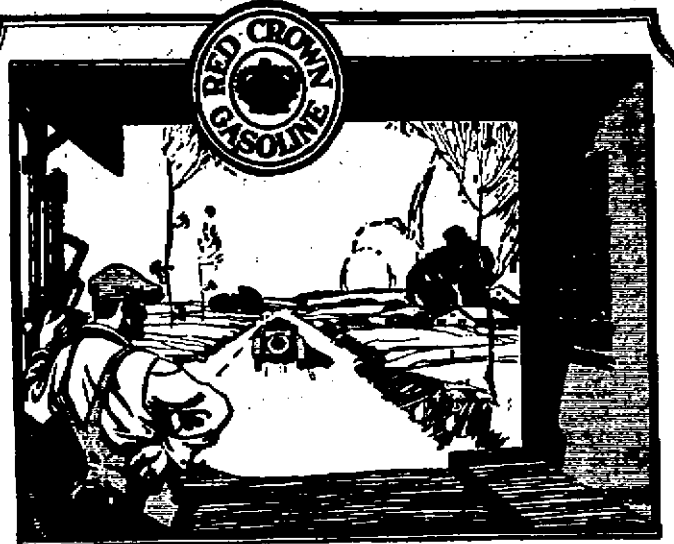

Worry, sleepless nights, headaches, pains, disorders, irregularities and weakness of a distinctly feminine character in a short time bring the dull eye, the "crow's feet," the haggard look, drooping shoulders, and the faltering step.

To retain the appearance of youth you must retain health. Instead of lotions, powders and paints, ask your druggist for Dr. Pierce's Favorite Prescription.

This famous medicine strikes at the very root of these enemies of your youthful appearance. It makes you not only look young but feel young. It overcomes the weakness and builds you up.

Your druggist can supply you with liquid or tablets; or send ten one-cent stamps to Dr. Pierce's Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a trial package of the tablets will be mailed to you. Dr. Pierce's Favorite Prescription has been in use 50 years.

If you wish to know all about yourself, drop a line to Dr. Pierce for free pamphlet on Diseases of Women. Should you desire to consult his medical staff of physicians or ask for information, the same will be cheerfully furnished you wholly without cost and your letter will be treated as strictly confidential.

At the annual meeting of the stockholders of the Ohio Stove company this morning, the same Board of Directors were re-elected. The directors then organized by electing Robert C. Bryan president and treasurer, and Harry F. Hertram vice-president and secretary. These two, together with

Mrs. Geo. M. Appel, Simon Labold and James D. Bryan, constitute the Board. The company closed the year about as satisfactorily as could be expected, with the great scarcity of materials with which they had to contend, alike with many other manufacturers. They anticipate a prosperous year.

John Evans Made Talk

The following from the Franklin, O. Chronicle is of interest here as John Evans was among the visitors entertained by Mr. and Mrs. George Hall. The home of Mr. and Mrs. Geo. Hall on Second street, was the scene of an interesting gathering on New Year's Day, when Mr. Geo. Hall entertained the executive board of the United Order of Odd Fellows. These representative men came from all over Ohio to transact the business of the mid-winter meeting for the benefit of the order, and in the group were men who have given much loyal service to the advancement of their race. After the dinner Mr. Evans was among the speakers and his subject was "The American Negro in America."

Take Aspirin With Water

If your Aspirin tablets have the name "Bayer" stamped on them, they are genuine "Bayer Tablets of Aspirin," proved safe by millions of people. The name "Bayer" identifies the true world-famous Aspirin prescribed by physicians for over eighteen years. Always drink one or two glasses of water after taking the tablets. Each unbroken "Bayer package" contains proper directions for Colds, Headache, Toothache, Rheumatism, Neuritis, and for Pain. Always say "Bayer" when buying Aspirin. Then look for the safety "Bayer Cross" on the package and on the tablets. Handy tin boxes of twelve tablets cost but a few cents. Drug-gists also sell larger packages.

SAYS LEGISLATORS CANNOT REPEAL RATIFICATION

WASHINGTON, D. C., Jan. 13.—State legislators cannot under the law repeal ratification of the constitutional prohibition amendment, Wayne B. Wheeler, counsel for the Anti-Saloon League, declared today in a statement discussing recommendations for repeal made to the law-makers of New York by Governor Smith. Mr. Wheeler cited the attempt of New Jersey and Ohio to withdraw ratification of the 18th amendment. Congress refused to accept the repeal and both states were counted among "those voting affirmatively. Without their ratification the amendment lacked sufficient votes to become operative. Chief Justice Marshall was quoted by Mr. Wheeler as follows: "The principle is asserted that one legislature is competent to repeal an act which a former legislature was competent to pass. The correctness of this principle, so far as respects general legislation, can never be controverted. But if an act be done under a law, a succeeding legislature cannot undo it. The past cannot be recalled by the most absolute power."

Bingham Delights Audience

Ralph Bingham, one of America's premier humorists, had his request for a multitude to greet his latest night fulfilled as well as his other request for a piano at the left of the stage facing the said multitude. In his usual happy vein he wrote a letter to Prof. Frank Apple Tuesday making the requests. The high school auditorium was packed last night when Mr. Bingham appeared here as the fifth number on the elementary school lecture course. He has appeared here before and his program made such a big hit the last time that all who heard him then turned out last night to listen to his puns and jokes again.

Mr. Bingham's characteristic smile and laugh were enough to cause the large audience to roar and applaud. He gave as he said a "messy language" program. It was divided in a most pleasing manner. Mr. Bingham mixing in with his puns, jokes and funny stories several violin selections, pianologues and vocal numbers taking a few minutes near the close of the program to speak a few words on loyalty and the driving out of the Bolsheviks. He was assisted in the violin music and vocal number by his wife who is an accomplished pianist. The entertainer made a big hit with his monologues and dialogues and as a side issue gave several negro selections which he has produced for Victrola records. His puns and jokes were original and he kept the audience in an uproar all evening. The next number on the elementary lecture course will be given by Maude Ballington Booth who will appear here on Wednesday night Feb. 4.

Steel Plant Wins Game

The Steel Plant won their first game from the Irving Drew team last night when they defeated them by the score of 25 to 18. As the score indicates, the Drews put up a fine fight against their superior antagonists, holding the Steel Plant's score well down. Mohl played an especially good game at center, getting the knock-out time after time. McGay, a new man on the Drew team, also put up a first-class brand of basketball, making the highest score for his side. Bauman, as usual, was the star of the game, throwing eleven baskets. Drew put up a fine game as usual.

The line-up was as follows:
Drew: McGay RF, Bauman LF, Mohl C, Bauman RF, McGay RF, Bauman LF, Mohl C, Bauman RF.
Field goals—Bauman 11, Bauman 11, McGay 8, Drew 2, Mohl 2, Bauman 1. Foul goals—Bauman 1.

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia To Overcome Trouble Caused by Fermenting Food and Acid Indigestion

Gas and wind in the stomach, accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion." Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis, accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and impairs the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bismarck Magnesia (in powder or tablet form—never liquid or salt) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

REDS EXPECT AID FROM THE CHINESE BOLSHEVIKI

LONDON, Jan. 14.—Russian soldiers have reached Bala station, almost 400 miles east of Tsingtao, will be aided by Chinese Bolsheviks, according to a Moscow dispatch quoted by Reuters from Chelabinsk. It is said the Chinese will operate in the "coastal region."

The Bolsheviks expect soon to encounter Japanese forces sent to eastern Siberia and the Moscow dispatches state the soviet forces will not "undertake any aggressive action calculated to provoke a collision."

It says, however, that "the menace of the Japanese and of the entire forces in the west will compel the soviet authority to devote a great part of its forces to military purposes."

While Polish and Lithuanian forces have driven ahead along the northern Russian front and have forced the Bolsheviks to retire at a number of points, their offensive is said by Moscow to be "merely local."

Odessa has been occupied by Ukrainian soldiers assisted by Galician units, it is reported. These troops do not appear to be fighting as comrades of the Bolsheviks, although they are opposing the troops formerly commanded by General Denikin in southern Russia. Other reports state that Denikin has dismissed General Schilling as commander of anti-Bolshevik troops in Odessa and appointed General Ignatiev commander of the garrison with orders to organize the defense of the city. Bolshevik official reports state the Crimean and Ural regions have been cleared of opponents and that the Turkistan front could be considered as being safely held by soviet forces.

WELLSTON MAY GET ON NEW WAR MAP

WELLSTON, Jan. 14.—The Wellston Chamber of Commerce is up and doing all the time. It has just received a questionnaire from the War Department regarding a suitable landing field on the Dayton, Ohio, to Washington, D. C. Aerial Route. Measurements are now being made of the Fair Grounds in this city, and if they meet the requirements, Wellston will be represented on a new war map, which is to be published February 1, as a government aerial landing.

Old Herbal Remedy Used For 40 Years In Relieving Diabetes

The most satisfactory results have been obtained in combating Diabetes by observing certain dietary rules and the judicious use of Warner's Safe Diabetes Remedy, an herbal preparation used with marked success for more than forty years. Following is a letter from a grateful user: "This letter is the best proof that I am still alive. Your medicine is a miracle to me. My weight was reduced from 175 to 114 pounds when I left the hospital. I left there August 1st, 1919, after 40 years, a true indication of its value. Get a bottle today. I know me said I would never live to return to my studio. After leaving the hospital I saw your 'AD' in the paper. I began its use and at once began to improve, and now everybody is saying to me that I look better than ever before. I tip the scales at 132 pounds and am back working again to the astonishment of all. I feel splendid and people say I am looking better every day. I must tell you that every word I have written is true and I can prove it by hundreds that know my condition. Jules Frisquet, 511 West First Street, Los Angeles, Calif." Warner's Safe Diabetes Remedy is made from herbs and other beneficial ingredients and has been on the market since 1879. It is a true indication of its value. Get a bottle today. I know me said I would never live to return to my studio. After leaving the hospital I saw your 'AD' in the paper. I began its use and at once began to improve, and now everybody is saying to me that I look better than ever before. I tip the scales at 132 pounds and am back working again to the astonishment of all. I feel splendid and people say I am looking better every day. I must tell you that every word I have written is true and I can prove it by hundreds that know my condition. Jules Frisquet, 511 West First Street, Los Angeles, Calif.

NERVOUS PROSTRATION

Mrs. J. Christman Proved That Lydia E. Pinkham's Vegetable Compound is a Remedy for this Trouble.

Binghamton, N. Y.—"I was in a very nervous condition for over a year, my mind was gloomy, could see no light on anything, feeling down and could not have anyone to see me. Doctor's medicines did not help me and Lydia E. Pinkham's Vegetable Compound was recommended. I took it and am now well. I recommend it to all afflicted with nervous prostration."

—Mrs. J. CHRISTMAN, 128 Oak Street, Binghamton, New York.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unsurpassed. It may be used with perfect confidence by women who suffer from nervous prostration, displacement, inflammation, ulceration, irregularities, periodic pains, backache, indigestion and feeling. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

If there are any complications about your case, please write in confidence to Lydia E. Pinkham Medicine Co., Lynn, Mass.

face. Allow to stand for three or four hours to "set" and then remove the weight. If the work has been carefully done the foil will adhere closely to the glass. Usually, however, it is cheaper and more satisfactory to buy a new mirror than to attempt to resilver an old one.

Dear Dolly—I am writing you because I am in a world of trouble and if anyone can help me I believe you can. I am a woman 30 years old and always had life easy till the past year. In the past year I met a man who told me he loved me and doesn't want me as much as to go down street and has found me speaking to anyone. Now Dolly I have done just as he says and still he won't trust me across the street. Can he be doing this to me in mean or is he just jealous. He has threatened me on many times that I believe my life is in danger. Now I love him better than my own life. It makes no difference what he has done to me I can't dislike him. After he takes a spell he will

may be in a state of the way he has acted. What can I do with him. Shall I go on and take his mistreating. He says he will make my life a misery as long as I stay in this town and I can't go anywhere else. Now I don't want to go with anyone else but what can I do to make him treat me right or either stay away from me.

BROKEN HEART.
You can put a stop to his actions if you use a little will power. You are old enough to know better than to let him boss you around. Tell him you are going to do as you please from now on regardless of what he thinks about it.

Dear Miss Wise—I have red hair, black eyes and medium complexion and I weigh 115 pounds, am five feet six inches tall. Now Dolly how short do you think I ought to wear my dresses and what would be a pretty way to fix my hair?

BLACK EYES.
The length of your dresses depends to a certain extent on your age. If you are a school girl you should wear your dresses a little above the shoe tops. If you are a young lady you should wear them the regulation length which is about six inches from the ground.

Mary—The man you inquired about is a widower. I'll tell him about you the next time I see him.

Chamber Of Commerce Outlines Activities For The Coming Year

Activities of the Portsmouth Chamber of Commerce during 1920 will be directed mainly to the culmination of the projects which comprise the major program of work adopted by the board of directors and submitted to the membership at the weekly luncheon today by Henry F. Bertram, Vice-President of the organization.

They are in the order named: improved sanitation, adoption of a city plan, improved street railway facilities, better housing and street improvement. In addition to the major program, Mr. Bertram presented the forum program for the year, which includes ten subjects upon which discussion of forum meetings during the year will center. A supplementary program of questions to be considered during the year, comprising more than a score of subjects, was offered as the third section of the report of the board of directors.

In submitting the report, Mr. Bertram explained that subjects were listed in order in which their importance was indicated in response of the membership to the questionnaire mailed out shortly after the new Chamber of Commerce was organized. He urged the hearty co-operation of the membership in carrying out the program outlined by his board of directors.

MAJOR PROGRAM

Sanitation
Attack the problem of general sanitation by bringing to bear on its solution the best experience and knowledge of America, in order that a comprehensive plan may be developed, in accordance with which each separate project such as sewerage disposal, garbage disposal, water extensions, alley and street cleaning etc., may be undertaken in the order of their emergency without financially crippling the city.

City Plan
Obtain the necessary expert assistance for the development of a general city plan to be used as a guide in the further extension of the city. Enlist the acquisition of needed park and playground areas, the widening of streets which impede traffic and growth, the elimination of grade crossings, the construction of a union station and as a general make-ready for the city of 100,000.

Street Railway
Cooperate with the proper authorities in an effort to have the necessary steps taken so that adequate street car service may be provided.

Housing
Study carefully the housing needs of Portsmouth in the light of the experience of other cities which have worked on this problem and endeavor to devise a plan for relief of the housing shortage which will be best applicable to the local situation.

Street Improvement
Work with the proper municipal authorities for the adoption of a comprehensive street paving, repair and maintenance program.

FORUM PROGRAM

Hotel Facilities
Consider the possibility and the practicability of advocating the erection of a centrally located hotel.

Court House
Work for the erection of an adequate court house.

Telephone Service
Work for the improvement of the telephone service.

Industrial Development
Encourage the industrial development of Portsmouth thru expansion of present plants and the acquisition of additional industries remembering the fundamental problems which must be solved in preparation for such expansion.

Municipal Building
Consider the need for a suitable municipal building to house all departments of the city government.

Hospital Facilities
Study the need for additional hospital facilities in order that the city may have an efficient, modern hospital.

Lake Erie-Ohio Canal
Endeavor to make Portsmouth the terminus of the Lake Erie-Ohio Canal.

Theater
Consider the need for a modern theatre where the best music, drama and theatrical attractions could be secured.

Good Roads
Work for the construction of more permanent roads so that Portsmouth may benefit from being the center of a paved road system.

Building Code
Urge the adoption of a building code in accordance with the best modern practice so that the future building construction in the city may be regulated.

Supplementary Program
Municipal Government—Enforce Ordinances, Efficient Police Department, Adequate Fire Protection Commission, Manager Government, Street Lighting, Food Inspection, Traffic Regulations.

Public Buildings—Y. M. C. A., Y. W. C. A. enlarge, Market House, Community Building.

Public Service—Mail Deliveries, Express Deliveries.

Municipal Improvements—Better Sidewalks, Street Markers, Thru-Extend Flood Walls, Better Ferry Approaches, Better Approach to Scioto River, Raise Tow Path, Wharf Warehouse on City Level.

Miscellaneous—More Interurban Lines, Better Schools, Clean up Vacant Property, Buy at Home, Day Light Savings, Co-operate with Farmers, Improve Industrial Relations, More and Better Restaurants, A "Peace" Chest, Regulate Bill Boards, Provide a Business Library, Take Care of the Trees, New Cemetery.

Announcement of the selection of

C. E. Dowling as chairman of the forum steering committee for the year was received with enthusiastic applause. Upon him will devolve the task of supervising the arrangements of the forum meetings, which for the present, will be held every Wednesday, beginning with luncheon at 11:45 a. m.

Mr. Dowling indicated that foreign speakers will be engaged from time to time to discuss subjects of pertinent interest to the chamber, but that in the

majority of instances, the discussions will be led by members of the chamber who are considered to be most conversant with the questions to be given consideration. Nearly 200 members attended the luncheon, which was served by the women of the First United Brethren church in the basement of that church. John C. Bauer, one of the directors of the chamber, presided. A sing, led by John Weaver, preceded the forum session.

The Markets

NEW YORK STOCKS

NEW YORK, Jan. 14.—With a few unimportant exceptions, the entire list was under renewed selling pressure at the unsettled opening of today's stock market. Featureless within the first half hour ranged from 1 to 6 points in Crumline Steel and unlisted shares and equities. Shipping, motor, oil, American Woolen and several of the more active miscellaneous issues were heavy to weak. United States Steel was the only recognized leader to display any degree of steadiness.

Lacking a more obvious or direct explanation of the weakness of the market was attributed to some quarters to overnight advices from abroad, notably reports of serious disturbances in Berlin. There was further apprehension regarding the money market, although yesterday's later quotations for demand loans indicated relaxing tendencies. Selling continued in diminishing volume throughout the morning with many supplementary losses, especially in motors, oils and steel shipplings.

Heavy selling for both accounts of effected gross declines to 3 to 10 points among numerous speculative stocks today. Continued stringent money conditions, the chief influence. Sales approximated 1,150,000 shares.

The closing was weak.

CLOSING PRICES OF OHIO STOCKS

COLUMBUS, Jan. 14.—Closing: Cites Service common 4.10 to 4.15; Cites Service preferred 7 1/2 to 7 3/4. Ohio Gas 46, last sale.

CHICAGO GRAIN AND PROVISIONS

CHICAGO, Jan. 14.—Rallies took place in the corn market today from depression which showed itself at the outset. Opening prices, which ranged from 1 1/2 to 1 3/4, were followed by a 1/2 to 1 3/4, were followed by a jump back to yesterday's finish or above.

Closing prices were nervous, 5-8 to 1 1/2 to 1 3/4, with May 1 1/2 to 1 3/4.

Oats were ruled by the fluctuations in corn. After opening unchanged to 1/2 lower, including May at 80-85 to 80 1/2, the market scored a slight advance.

Higher quotations on hops tended to strengthen the provision list. Estimates were current that the forthcoming report of a number of hops in the country would show a reduction of ten per cent as compared with a year ago.

CLUBS

Charley Springer's Lumberjacks made themselves factors in the Masonic League race, last night at the Play House, when they hammered the Electricians in submission three in a row, despite the frantic appeals of Captain John Millard, who used up all his strategy and who tapped his reserve tank of energy in an effort to head 'em off. The Lumberjacks were out for "bud" and they got what they went after. There was no brilliant playing on their part, but they rolled consistently, if not brilliantly and ended the evening with a total of 2425 pins, good enough to win in any old kind of a league and being the second best total of the season. The Electricians, who have been rejuvenated, revamped and reinvigorated totalling 2194 the night previous and thus staged off the rush of the Lumberjacks. Captain Springer was high man with 510, his second game being on the lowly order. More consistent bowling than that done by the Lumberjacks was never seen in these diggings. Charles Dacher came through with the second best total, 456, Orville Sprague had 455. P. E. Selby 454, and Edward Strittmatter 451—beat that for regularity if you can. Walter Wilhelm was the king bee for the Electricians, gathering 475 and overshadowing Harry Jefferson who had a bad night and who finished with only 480—the poorest night he has had since Heck was a pup. Frank Webb was the second best pin getter in the Electric line up, Raymond York and Captain Millard were off their feed as wood choppers and just got across the 400 line.

Down at the Pennant alleys the Red Peppers lost all three games to the Jeppies and shades of Jimmy Smith, Orson Ogier, who is getting away in the service and who has been playing for the time to come when he could get 500, had his prayer, added, heaped up, running over and pressed down—shooting for 634 and making a 200 score the first time he ever did that thing in a match. He will buy more wheat, sell more corn and contract for more flour as a result—for he is in high gear and will ever remain and act as such. The scores:

Lumberjacks—

Sprague 455, Selby 454, Strittmatter 451, Dacher 450, Springer 400.

Electricians—

Jefferson 480, Webb 475, York 470, Millard 465, Wilhelm 460.

Herman is working out daily and is taking no chances on being out of condition for a hard go as he admits that Willis is one of the best of his weight.

Charles Keiger, well known local wrestler, who has been in the game for years, has been urged for some time by his many friends to get back in the main game and will be at the match to challenge the winner to a handicap match, agreeing to throw the winner twice in an hour.

WILLIAM FOX, MILLIONAIRE MOVIE MAN, MAY STAGE DEMPSEY-CARPENTIER BATTLE

William Fox and intimate glimpse of him at work on movie scenario in his garden of home.

Listed among the men who have been in bids for the heavyweight championship battle between Jack Dempsey and Georges Carpentier is William Fox, millionaire movie magnate. Fox's offer is the highest made to date. He offers Dempsey \$300,000, Carpentier \$250,000 and pledges to give the net profits of the show to the Red Cross societies of the U. S., England, France, Canada and Australia. Fox would hold the fight near New York.

SYRACUSE, N. Y., Jan. 14.—The grand circuit stewards today made the decision to allow two weeks of racing in Syracuse in 1920, when they refused to allow Syracuse two weeks of racing.

Announcement was made that David M. Look, of New York, will be elected president of the new trotting association, which has been formed here to oppose the National and American associations, as a governing body of the racing sport in the United States. Mr. Look is the unanimous choice of the horsemen. Other officers will be elected and a name adopted in a few days.

The Syracuse, Philadelphia, Lexington, Cleveland, Kalamazoo, Michigan, and Poughkeepsie track associations are expected to join the new organization and race under the new organization's rules this year.

Hartford, Connecticut, Reading, Massachusetts, and Atlanta are expected to remain under the American association. Many half mile track associations have agreed to support the new organization, it was announced.

The P. H. S. floor squad meets the Circleville High quintet on the forum floor Saturday night in what promises to be a real struggle. Circleville has the same regular team as last year, and their experience should result in opposition to the red and blue five.

DUTCH WOMEN FIGHT FOR RIGHTS

THE HAGUE.—The ideals and ideas of Dutch women for centuries confined to children, kitchen and church, have undergone a change and the daughters of the land of windmills and canals are making a strong light for their rights.

Several great organizations have been formed for improvement of the conditions of women. With the revision of the Dutch constitution last year, women obtained full suffrage and the result is that now there are women in the Dutch law.

Building, however, that the possession of the vote alone does not divide the lot of women, the promoters of the movement are now seeking to bring about changes in the laws and regulations which discriminate against the sex economically and socially.

According to the Dutch law, said Mrs. Wilton H. Franklin, one of the leaders of the women's movement, the father has practically all the say in the education of the children. He decides as to their future, controls their marriage and may send them to the wars. Of course, this is located in Shanghai.

The new school is intended to serve as a laboratory for the entire American population in general about things, but the Chinese which numbers about 6,000,000, of the father may easily be High school graduates will be offered so that the father deliberately took a leading university in the United States and hid it from his mother. States, Heretofore, American pupils in the latter being able to do China have attended British schools.

Will Play 152 Games

HOUSTON, Tex., Jan. 14.—Club owners of the Texas League today announced a playing schedule of 152 games for 1920. The initial contest will be played April 16. The managers also voted against all trades, except the "split" ball.

Large Dirigible Being Built

ROME.—A large trans-Atlantic dirigible which will be capable of carrying 150 passengers and will travel 75 miles an hour, is now in course of construction in the Royal Italian Navy's aero station at Ciampino, near Rome. The length of the craft is estimated at about 400 feet while its cubical content is figured at 1,150,000 cubic feet.

DESTROYED JAP GOODS

TOKYO.—The Foreign Office has sent an agent to Fochow to investigate the seizure and destruction of Japanese goods in the Chinese boycott. A communication for the Chinese government will be in the joint investigation.

Foretold the President

Perry is feeling important these days, having been chosen secretary of her little church club. She was looking over the minutes of her first meeting when I suggested that she should always begin: "The meeting was called to order with the president in the chair." "But she wasn't," protested Peggy indignantly. "I was I got there first and got the big chair and the rest had only kindergarten seats."

Lucky Months

According to Dr. Marcello Boldini, one of Italy's greatest scientists, men born between January 1 and March 31 are stronger, taller and superior in intelligence to those whose birthdays fall in other months. This view is based on the researches of another Italian scientist, Decio Roveto.

Lemons	17	25	.403
Turkeys	14	28	.333
Levinettes	15	29	.344

Charles Springer's Lumberjacks made themselves factors in the Masonic League race last night at the Play House, when they hammered the Electric in submission three in a row, despite the frantic appeals of Captain John Millard, who used up all his strategy and who tapped his reserve tank of energy in an effort to lead "em out." The Lumberjacks were out for "blat" and they got what they went after. There was no brilliant playing on their part, but they rolled consistently, if not brilliantly and ended the evening with a total of 2,221 pins, good enough to win in any old kind of a league and being the second best total of the season. The Levinettes, who have been rejuvenated, revamped and reinvigorated totalling 2,181 the night previous and thus staged off the night of the Lumberjacks. Captain Springer was high man with 510. His second game being on the lowly order. More consistent bowling than that done by the Lumberjacks was never seen in the league.

NEVER MIND THE MOTIVE

FEARING it would be bad for the party, news drifts down from Columbus that the assembly will not enact an income tax law at this its much adjourned session.

Disregarding altogether what may have been the motive, rejoicing can be unconfined on the part of the taxpayer that he is to be spared this burden. Such arbitrary and unusual methods of raising revenues are always unpopular. One would be doubly so now when a growing excess is demanded for governmental expenses when government itself isn't giving us anything except more piling on of departments and official flunkies.

Particularly obnoxious would have been that feature of the proposed income measure which empowered the municipalities to lay on such rates as they choose in addition to the one granted the state. It would have been like taking the governor off of a steam engine. City officials would have secured unbridled and unbridled in ever increasing profligacy, because there would always be at hand the means by which they could keep running.

So having done so well, or rather omitted doing the wrong thing, it is not surprising to learn that the legislature is turning in the other direction to the solution of public finances. In other words, it is gravely and earnestly considering the abolition of numerous bureaus and sweeping reductions of the magnificent total of officeholders. This is exactly what ought to be done; yes, what it should have done long ago. For, as has been often presented and so vehemently persisted, our problem can not be served by attacking it at the wrong end. We want to go to the source of its origin and make the reformation there. For a dozen years Ohio hasn't seen anything, but a new division of administrative affairs and the multiplying of offices. That could come, eventually, to but one end and that we have already arrived at. Paying the interest on borrowing more, never yet got one out of debt. It looked fine for awhile to appropriate more money, by legislative act, and watch how uncomplainingly the people swallowed it. That process could not go on forever. The legislature has at last taken hint that it can not.

THE THINGS WE LEARN

THE other day we read an advertisement in the Hudson Observer, of New Jersey, that was unusually interesting.

Never having heard of such a place as Hudson that added directly to the advertisement and we went to a news-paper directory to find what manner of place it was. No such town was to be found, but after some search we discovered that the Hudson was the name of a county and the Observer was published in its county seat, the classic city of Hoboken, and had our conception that Hoboken was merely a ship landing opposite New York entirely dissipated by the information that it had, ten years ago, a population of 70,000 and, doubtless, a much larger one now. We also further gleaned that it is the fifth city in Jersey, while the Observer is the second paper in circulation in the state, and has almost as many readers as any contemporary in the third largest city, Patterson, which has almost twice the number of inhabitants and is notorious rather than notable for the constantly recurring strikes in its silk factories. As a rule, however, Jersey papers do not have as large a circulation, considering the importance of the towns in which they are published as those of other states. The reason for this is likely that the state is small, has many large cities, proportioned to its area, and it lies contiguous to New York, whose metropolitan papers can easily cover it before the inhabitants arise in the morning or retire at night.

A CASE IN POINT

THE big newspapers of the United States chafed mightily under the war censorship.

As usual with them, instead of taking the fair and reasonable course of trying to prove it was not a military necessity that the government have control over the publication of matters pertaining to the conduct of the war, they entered into a furious tirade against the man who was named as censor.

It is pleasant, however, that the period of hostilities was gone through with a remarkable quietude. Little was printed that unnecessarily alarmed and disturbed the people. What might have happened though had there been no censorship is shown by the ease of falsity and misinformation that has been inflicted upon the public since the muzzle was taken off. Take, for instance, an occurrence within the week. All terms of the final peace agreement had been set and nothing remained but for the representatives of the various governments involved—with the notable and unhappy exception of the United States, to meet at Paris on a given day and formally annex official signatures. On the very day before this was to be done the whole world was startled with the stunning announcement that the German government had been overthrown, and, consequently the peace treaty could not be executed. There was, however, absolutely nothing in "the news."

The German government had not been overthrown. Indeed, in so far as subsequent intelligence developed there had not been so much as a street brawl in Berlin, while on the appointed day and at the fixed hour the representatives met and signed the document that formally brought all the nations of the earth to a state of peace with Germany, all except America, which, technically, is still in a state of war with her. Under a censorship such an alarm would not have been possible.

New-York-Day-By-Day

BY
O. O. McINTYRE

NEW YORK, Jan. 14—

There is a head waiter.

In a swell restaurant.

With a smart French name.

Who calls me by name.

Because we went to college.

In the same western city.

And took the same course.

And his education "look."

And he wears evening clothes.

Even while he's at work.

And I wear an old sweater.

And white duck pants.

Spotted with ink and ashes.

And he used to be Jack.

But now he's known as Jacques.

And all the French.

We studied together.

And which I forgot.

Is mighty handy for him.

And anyway I like Jack.

And whenever anyone.

Comes to New York.

That I want to impress.

I take him around to Jack's.

And he bows very low.

And calls me by name.

And gives me the best table.

And never acts like.

He ever knew me so well.

That I borrowed his ties.

And his smoking tobacco.

When we went to college.

And just the other night.

I dropped around to see him.

And he wasn't there.

And there was a new man.

And he told me Jacques.

Had gone to Palm Beach.

To his Italian villa.

That he couldn't stand.

The rigors of our winters.

Here in the north.

And here I am.

With the same education.

Two jumps ahead of a sheriff.

And a thin overcoat.

Is all that I have.

To keep off the chills.

And the only villa I know.

Is Pancha.

And nobody seems to know.

Where he is at present.

But I don't care.

I've got ideals.

Whatever they are.

THE MARRIED AVERAGE MAN

Jim and I have been to Hammond's. Corners together to look over the place and see the house that is to be our future home, for a time at least. I am so glad we went. I shudder less over the idea than I did at first. It is so with all troubles, I suppose. Troubles are like a road over a hill. At a distance they look perfectly attainable. When we get right up to them they aren't so bad. Right up to the time we have reached the top there is quite a decent view.

There is a lot in Athena's rule: "Don't allow anything to be a big trouble. It's all how you look at it. Nothing is terrible unless you think it is."

I'm trying not to think of Hammond's Corners as a calamity, and now that I've seen it I have a faint idea that it won't be.

The place is a mere hamlet, as I supposed, but pleasant as I pictured it, with one long, wide "street" and beautiful elms. Most of the people are employed at the bridge works. That Jim is to manage, and my how deferential they were to my old Jim. Everybody from "bikes" down seemed to be tickled to death that he was to boss things.

The house we are to live in is not bad. Think heave, it is an old fashioned, without gingerbread scrollwork all over the porch, or line and red glass in the front door! Mr. Oakes himself, owner of the bridge works, once lived in it, so there is a bath room and a furnace.

It is a small house, I am happy to say. I always hated a big place, with a lot of useless rooms to take care of. There is a dear, sweet, picturesque garden back of the house, with a few little green paling fence and a tiny gate.

The caretaker says all sorts of flowers are planted there. Some will come up of themselves in the spring; others I shall set out. The trees are big and beautiful and a clump of blue bushes on either side of the path to the front entrance. There are some fruit trees out back, and a Japanese quince which will be a mass of pink blossoms in a few weeks.

The room I shall take for my own special den and work shop looks into the garden and is full of southeast sunshine. I know I can do lots of work there. If I cannot continue with my "Correspondence Corner" for the "Messenger," at least I can, and will write stories. I may even write a book, who knows? Athena says anybody who can use plain English and is willing to tell the truth about themselves can write an interesting novel.

Another thing that helps to reconcile me to a spell at Hammond's Corners is Jim's joy and interest in his new undertaking. He continues to be a transformed man. Keen, brisk, eager.

WHO'S WHO In The Days News

Ossel Gershom Apfelbaum, alias Zlotov, Radomyslsky, Shatsky Grigoroff, one of the important figures in the Russian Soviet government, was born in the Ukraine in 1883. In his early youth he came under Lenin's influence and has remained under it ever since.

G. ZLOTOV.

Like nearly all the genuine Bolshevik leaders, he suffered imprisonment during the days of the old regime, and after his release was forced to flee abroad.

During the ten years immediately preceding the war he was one of the most active members of the Bolshevik central committee, and for some years was secretary of the party. At the beginning of the war he was with Lenin in Ga'eta, and took a firm stand beside his chief in his wholesale denunciation of militarism and of the war aims of both sets of belligerents.

From 1914 until the March revolution he edited with Lenin the Social-Democrat, a paper published in Switzerland and devoted mainly to a sweeping condemnation of those socialists who supported the war or who made no active resistance to it. With Lenin, too, he represented Russia at the Zimmerwald, Berne, and Quinquennial conferences.

When in March, 1918, the Bolshevik government withdrew to Moscow, Zlotov remained in Petrograd as president of the Northern Committee.

Zlotov is a short, broad-shouldered man with a firm mouth, cold, incisive eyes, a high forehead and an abnormally large head. His is the face of a man of meditative, logical calculation rather than one of passion and haste. A fine orator, he has some of the dialectical ability of Lenin, but is credited, however, with very few original ideas.

He is an implacable enemy of the English and has been attempting to instill in the minds of Russians a bitter hatred for England, "the country which can never be reconciled to Russia."

As he has not been for months. He seems hardly able to wait until the house is in condition for use.

What a wonderful thing it is to find yourself to be fitted into your right niche. Jim in a favorable business environment is a strong, capable business man. Jim as a square peg in a round hole is an ineffectual nobody, and a rough to boot. He is of the type that success boosts and adversity crushes. What I am losing in leaving New York will be made up in gain to Jim, a hundredfold.

And I am rather proud of Jim. No matter how independent a wife may be and how capable of earning her own living, she wants her husband to beat her in the race.

Well, little diary, it's us for Hammond's Corners! But spring is on the way.

(To be continued)

DO C KOKO'S - KOLUM

Scioto Bottom Mud
We are handling corn in the mud. It is mud, the wagon goes to the hole. Mud, O mud, all that we can see, Mud a sight what a man can do or be.

It is mud over rubber and shoe; mud, sticks tighter than glue; I fell down, not it all over hand and knee.

Best to keep quiet and take a mud pill. As others are muddling the same mud still. Mud, O muddy mud, and nothing but mud. Some is thin enough to try the nerve and blood.

No use to get discouraged, you know. Just stoop and mix as I go. This is my experience of a muddy field. The best thing the mud has a good yield.

The corn is all soft and flooded. The mud is all sticky and stubborn. Muddy mud, it sure is a sight. Enough to kill a person such a fright.

Homeless in London
The United States government has never taken much interest in the housing of its ambassadors, says a British weekly, and when Mr. Page first arrived in London in 1913, having been embassy agent to be, he had to find rooms for himself.

Soon afterwards he set out one night to see the sights of the metropolis by moonlight, and while strolling slowly round Trafalgar Square, he was accosted by a suspicious policeman, who inquired his name.

"My name is Page," was the reply. "Well, what are you doing wandering about here? Hadn't you better go home?"

"Home!" exclaimed the doctor with mock solemnity. "I have no home." "No home!" reiterated the puzzled policeman. "Then who are you?" "Oh, I'm only the American ambassador," replied Mr. Page sadly.

Church Sleepers
A Yankee soldier in England was being shown over an old church wherein hundreds of people were buried. "A great many people sleep between these walls," said the guide, indicating the inscription-covered floor with a sweep of his hand. "So? Same way in your country. Why don't you get an interesting preacher?"—Pittsburgh Chronicle-Telegraph.

Of The Old School
Movie Manager—The new character man is the newest geek I ever saw. The Press Agent—He certainly has a hard cheek.

"I wonder where he gets that stuff." "I think he must be one of those old-time actors who used to double in brass."—Youngstown Telegram.

It Made Talk
Judge Henry Howland tells the story of a bustling young farmer who felt called upon to relieve the sudden cessation of drawing room conversation, which oftentimes overtakes even the most brilliant social circles. With the bluntness of a child, he timidly turned to the daughter of the hostess, who was not present in the room, and inquired:

"How-how-is-to-your-mother? Not that I give a—-but it makes me talk."

Inconspicuous
"Yes, I was fined \$200 for putting coloring matter in artificial butter." "Well, didn't you deserve it?" "Perhaps. But what made me mad was that the magistrate who imposed the fine had dyed whiskers."—Milestones.

BILLY WHISKERS

BY FRANCES TREGO MONTGOMERY

The next day was Billy Whiskers' lucky day, maybe because it was Friday. It happened in this way, Mr. Wagner had some extra nice straw berries, which he had taken special pains to pick and fix up, intending to send them to a friend in town. He told the boys that they could take the cart and drive into town, with the berries and some nice lettuce for his friend, and get the mail on the way back.

The boys were delighted at the prospect of driving Billy in the new cart. They packed the things in nicely, and hitching Billy up drove out of the lane in the style on a fast trot. Everything went well until half-way to town, when Jimmy Brown slipped his dog on the road and then trouble commenced.

Billy Whiskers made a plunge for the dog, missed him, but gave the cart a quick jerk, which spilled the boys' forces, clothes torn, and no letter of thanks from the people the berries had then the cart began to wobble. The boys' been sent to the best plan for the dog, branding the overcast cart with him, and in two minutes he had sent the dog flying over the fence with his sharp horns. He then proceeded to walk quietly back to where the strawberries and lettuce were lying in the road and commenced cutting them with his teeth.

As if nothing had happened at all. All this time the boys were pulling each other's hair, and rolling over in the dust, in a regular pitched battle. Billy, having eaten all he cared for, walked off and lay down in the shade to rest, still dragging the cart after him. He was just taking himself in sleep, when he was jerked to his feet by a "berry" the cart was "struck" and he, before he knew what he was about, he was being driven toward home as fast as his legs could go and from the conversation he learned that they had taken their departure so hurriedly because they had seen Jimmy's big brother coming down the road and they did not care to stop and fight him.

DARTON, Ill., Jan. 14.—Brown Downey, of Columbus, stopped Nig Howell, of this city, in the ninth round of their scheduled twelve round contest here last night. Downey started sending Howell to the floor in the second round, but the latter took a lot of punishment in the remaining seven sessions.
